Organic Chemistry and Biochemistry

<i>N. Valentić, G. Uščumlić and M. Radojković-Veličković</i> : Effects of substituents on the electronic absorption spectra of 3-N-(4-substituted phenyl)-5-carboxy uracils in different solvents. Part II	81
<i>S. Husinec and V. Savić</i> : The synthesis of some unsaturated 4-substituted- γ -lactones.....	87
<i>I. M. El-Deen and M. E. Abd El-Fattah</i> : Synthesis and biological activity of some heterocyclic compounds containing quinoxaline and coumarin moieties.....	95
<i>S. Sukdolak, S. Solujić-Sukdolak and Lj. Krstić</i> : Microbiological transformation of a synthetic benzofurane type lactone	103
<i>P.I. Premović, I.R. Tonsa, D.M. Djordjević and M.S. Pavlović</i> : Air oxidation of the kerogen/asphaltenes vanadyl porphyrins: an electron spin resonance study.....	113
<i>D. Filipović, M. Radojčić and B.H. Milosavljević</i> : Determination of the critical molar mass of ovalbumin oligomers degraded by ultrasound.....	123
<i>M. Janković</i> : Isolation and characterization of galectin-1 binding proteins from human placenta	131
<i>V. Marinović and M. Čuperlović</i> : Investigation of prostate specific antigen glycosilation (Short communication).....	141
