

CONTENTS

Organic Chemistry

<i>G. S. Ušćumlić, A. A. Kshad and D. Ž. Mijin</i> : Synthesis and investigation of solvent effects on the ultraviolet absorption spectra of 1,3-bis-substituted-5,5-dimethylhydantoins	699
<i>K. Penov-Gaši, S. Stojanović, M. Sakač, E. Djurendić, S. Jovanović-Šanta, S. Stanković, N. Andrić and M. Popsavin</i> : Synthesis, crystal structure and antiaromatase activity of 17-halo-16,17-seco-5-androstene derivatives	707
<i>A. D. Nikolić, M. R. Mladenović, L. Gobor, D. G. Antonović and S. D. Petrović</i> : FTIR study on N-H... π hydrogen bonding: <i>N</i> -alkylpropanamides - aromatic donor system	715
<i>Z. D. Petrović, D. Andjelković and Lj. Stevanović</i> : Vitamin B ₁₂ -catalyzed synthesis of some peracetylated alkyl β -D-xylopyranosides (Short communication)	719
<i>V. V. Dabholkar and R. P. Gavande</i> : A microwave-catalyzed rapid, efficient and ecofriendly synthesis of substituted pyrazol-5-ones (Short communication)	723

Inorganic Chemistry

<i>H. S. Seleem, B. A. El-Shetary, S. M. E. Khalil and M. Shebl</i> : Potentiometric and spectrophotometric studies of the complexation of Schiff-base hydrazones containing the pyrimidine moiety	729
<i>W. Ferenc, A. Walków-Dziewulska and J. Chruściel</i> : Spectral and thermal behaviours of rare earth element complexes with 3,5-dimethoxybenzoic acid	751

Analytical Chemistry

<i>S. M. Rančić, R. P. Igov and T. G. Pecev</i> : Kinetic determination of As(III) in solution	765
--	-----

Materials

<i>K. I. Popov, S. B. Krstić, M. Č. Obradović, M. G. Pavlović, Lj. J. Pavlović and E. R. Ivanović</i> : The effect of the particle shape and structure on the flowability of electrolytic copper powder. I. Modeling of a representative powder particle	771
<i>K. I. Popov, M. G. Pavlović, Lj. J. Pavlović, E. R. Ivanović, S. B. Krstić and M. Č. Obradović</i> : The effect of the particle shape and structure on the flowability of electrolytic copper powder. II. The experimental verification of the model of the representative powder particle	779
