Organic Chemistry

<i>S. Ž. Drmanić, B. Ž. Jovanović, A. D. Marinković and M. Mišić-Vuković</i> : The kinetics of the reactions of 2-substituted nicotinic acids with diazodiphenylmethane in various alcohols	515
<i>N. V. Valentić and G. S. Uščumlić</i> : Effects of substituents on the ¹ H-NMR chemical shifts of 3-methylene-2-substituted-1,4-pentadienes	525
<i>V. W. Bhagwat, J. Tiwari, A. Choube and B. Pare</i> : Kinetics and mechanism of cetyltrimethylammonium bromide catalyzed oxidation of diethylene glycol by chloramine-T in acidic medium....	535
<i>B. Todorović-Marković, Z. Marković, N. Marinković and T. Nenadović</i> : Experimental study of physical parameters significant in fullerene synthesis (Short communication)	543

Physical Chemistry

<i>I. Gutman, B. Arsić and B. Furtula</i> : Equiseparable chemical trees	549
<i>D. Ž. Mijin, D. G. Antonović, G. Bončić-Caričić, B. Ž. Jovanović and O. S. Rajković</i> : Gas chromatographic retention indices for N-substituted amino <i>s</i> -triazines on capillary columns. Part IV. Influence of column polarity on retention index	557
<i>T. J. Janjić, G. Vučković and M. B. Čelap</i> : Investigation of the compatibility between one-dimensional system parameters and the multidimensional Solvation parameter model in RP liquid column chromatography	565
<i>S. D. Pawar and P. M. Dhadke</i> : Extraction and separation studies of Ga(III), In(III), and Tl(III) using the neutral organophosphorous extractant, Cyanex-923	581
<i>A. Cecal, A. Paraschivescu, K. Popa, D. Colisnic, G. Timco and L. Singenorean</i> : Radiolytic splitting of water molecules in the presence of some supramolecular compounds (Short communication)	593
