

CONTENTS

**Organic Chemistry and Biochemistry**

- H. Ç. Onar, B. Hasdemir and A. Yusufoglu:* Asymmetric Meerwin-Ponndorf-Verley reduction of long chain keto alkanolic acid methyl esters ..... 421
- D. Andrić, G. Tovilović, G. Roglić, Đ. Vasković, V. Šoškić, M. Tomić and S. Kostić-Rajačić:* Synthesis and pharmacological evaluation of several *N*-(2-nitrophenyl)piperazine derivatives ..... 429
- I. K. Bhat, S. K. Chaithanaya, P. D. Satyanarayana and B. Kalluraya:* The synthesis and antimicrobial study of some azetidinone derivatives with the *para*-ansidine moiety.... 437
- T. Shah and V. Desai:* Synthesis and antibacterial studies of some novel isoxazoline derivatives..... 443
- T. Vukašinović Milić, M. Rakin and S. Šiler-Marinković:* Utilization of baker's yeast (*Saccharomyces cerevisiae*) for the production of yeast extract: effects of different enzymatic treatments on solid, protein and carbohydrate recovery ..... 451
- S. O. Podunavac-Kuzmanović and D. M. Cvetković:* Antibacterial evaluation of some benzimidazole derivatives and their zinc(II) complexes..... 459

**Physical Chemistry**

- A. Yildiz and A. Gür:* Adsorption of phenol and chlorophenols on pure and modified sepiolite 467
- G. Liu, S. Chen, H. Ma and X. Liu:* Molecular simulation study of 1,5-diphenylcarbazide self-assembled monolayers on a copper surface ..... 475
- A. Sari and M. Soylok:* Equilibrium and thermodynamic studies of stearic acid adsorption on Celtek clay ..... 485

**Thermodynamics**

- A. Ali, S. Khan and F. Nabi:* Volumetric, viscometric and refractive index behaviour of amino acids in aqueous glycerol at different temperatures ..... 495

**Materials**

- I. M. Djordjević, D. R. Sekulić and M. M. Stevanović:* Non-linear elastic behaviour of carbon fibres of different structural and mechanical characteristics..... 513

**Chemical Engineering**

- Lj. S. Vasić, I. B. Banković-Ilić, M. L. Lazić, V. B. Veljković and D. U. Skala:* Oxygen mass transfer in a 16.6 cm i.d. multiphase reciprocating plate column ..... 523
