

30th International Symposium on Separation Sciences

Univers T Hotel & Cluj-Napoca, Romania

September 21–24, 2026

INVITATION

The Romanian Chemical Society cordially invites you to participate in the 30th of the ISSS-2026 Symposium, which will take place in Cluj-Napoca, Romania, between September 21–24, 2026.

ISSS-2026 is organised under the auspices of the

Romanian
Chemical
Society

Babeş-Bolyai
University,
Cluj-Napoca

Central European
Group for Separation
Sciences

Ministry of
Education &
Research

The Symposium Venue is UNIVERS T HOTEL, located on the shore of Lake Gheorgheni, four km from the historic city centre and close to the airport. Tourist attractions are accessible on foot.

ISSS-2026 focuses on fundamental and practical aspects of methods for the separation and detection of compounds from various matrices, as well as on hyphenated, multidimensional & miniaturized techniques applied for analytical, preparative & industrial purposes, including new horizons & challenges in separation sciences.

The scientific programme includes plenary & keynote lectures, oral, flash & e-poster presentations, as well as debates on the topic “Advanced today, conventional tomorrow in separation sciences”.
